Grading

This course is graded Pass (P) or No Pass (NP). **In order to get a grade of Pass (P) in this course, you must get a grade of C or better on at least four (4) of the five (5) projects.** If you receive a grade of C or better on the first four projects, you are not required to do the final project. The projects will be made available in BLACKBOARD (the on-line course management system used at UNT), and you will do them during the regularly scheduled class period every Thursday. Each project will be a series of words, sentences, or paragraphs to analyze, summarize, and/or translate. Projects will be based on material covered in the required textbook (see the daily schedule available in BLACKBOARD). Since you will be doing these projects at home, in the library, or wherever you choose to do them, you will have access to any resources available to you. More information about the projects will be given to you in class.
